ELEGANT AND INVALUABLE

Articles for the Toilet

Bogle's Hyperion Fluid,

For Fertilizing, Preserving, and Embellishing the HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which the fluid is held by scientific and learned. Being one only of many similar testimonials, it is offered to the public with the assurance that it is the most elegant and efficacious article for the Hair ever offered to the public.

Boston, Feb. 15, 1847.

Mr. Wm. Bogle,—Sir: The preparation invented by you for the hair, has been extensively used by my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and cleans the skin of all dandruff, without producing any ultimate deleterious effects, which are so frequently the result of many well known articles in common use. Yours, &c.

WINSLOW LEWIS.

It is a fine, agreeable article for the Ladies, as it cleans the skin, gives a fine curl, and the silky appearance of the hair, free from dandruff and scurf. For children it lays the foundation of a good head of hair.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different and superior to anything yet invented for shaving. This Amole is derived from the Amole, or "Soap plant" of California, an article used by the native women of that country for washing their long, silky hair, it being a delicate, but powerful cleanser, and yet perfectly harmless. Its agreeable and detergent properties have the finest and most invigorating effects on the skin, which it softens and leaves pliant and smooth, as can be further witnessed by those who try it. It is delightful for the shave with this incomparable soap. It is done in an elegant style, calculated either for the "tough and ready" travel or, at the toilet of the most fastidious connoisseur.

Boyle's Hebeniona.

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate and blooming as a maiden's; effectually preventing the ill-effects of the heat of summer, and freckles, blotches and tetter, and is the most fragrant and delicious article to be found at any toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are warranted superior to anything yet introduced. If not perfectly satisfactory on trial, the money in all cases will be refunded by my Agents.

CHERRY PECTORAL

FOR the Cure of

COLDS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS CHERRY PECTORAL is offered to the public with the confidence that it will do all that is claimed for it. Its extraordinary virtues have been proved in cases so numerous and so generally known, that it seems unnecessary to publish them. Its success in the cure of Pulmonary Complaints has been so decisive, and so well known to the people of this country, that it will not fail to attract the attention and the public confidence.

Scarcely an individual, and a family, but has in their circle of acquaintance, some one who has been cured by it of Consumption, Bronchitis, or Asthma.

Prof. VALENTINE, of Vermont, certifies the value of this medicine in the strongest terms, which I consider unnecessary to publish, because the Professor is one of the most eminent physicians in the country, and his testimony would be received with the utmost confidence everywhere.

Rev. Mr. SCOTT, of Vermont, a distinguished Methodist divine, writes, "The Cherry Pectoral is a valuable medicine, which I have found effectual in my family, when all other means failed to relieve my child from the effects of a severe cough, which had reduced her to the last stage of Consumption. Her recovery was so rapid as to astonish her friends and myself."

Rev. Mr. BRANE, a distinguished Methodist church minister, writes to the Proprietor, "Your Cherry Pectoral has been made a blessing to my family. I feel it my duty to make this public, which I have done in my circuit, to let the world know that it is worth the attention of the sick."

Mr. [illegible], a well known druggist at the largest dealers in the Western country, writes, "Your Cherry Pectoral is the most popular medicine we have in the Western country, and the most successful."

Prepared by J. C. AYER, Practical Chemist, Lowell, Mass.

Sold by the following agents in Bangor, LADD & INGRAHAM, A. P. GUILD, GEORGE W. EMERSON, S. L. GOLDEN, Bucksport, G. L. Stevens, O. Poor, Hillsworth, Bucksport, Agents generally throughout the country.

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 22 State Street, - - Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of 1836, 1839, 1840.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, where, by a Patent may be procured about five weeks earlier, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters regarding the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions, and of consulting in respect to them, matters, in general, of importance in order to obtain correct specifications and claims. The experience of sixteen years in practice, and an extensive collection of rare works, decisions, &c. on mechanical subjects, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to offer to inventors desirous of procuring Patents, assurance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq. of Boston, did business at the Patent Office as Solicitor for procuring Patents (There were few, if any, persons acting in that capacity, who had so much business before the Patent Office,) and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

To the Hon. Judge of the District Court for the Eastern District, to be held at Bangor in and for the County of Hancock and State of Maine, on fourth Tuesday of May next.

JOSEPH H. HAYWARD, of Boston, in the County of Suffolk and Commonwealth of Massachusetts, guardian of his children, Harriet S. Hayward, Catherine D. Hayward, and Josephine Hayward, minors under the age of twenty one years, duly appointed by the Judge of Probate for said County of Suffolk, respectfully represents, that his said minor children and wards are seized and possessed of certain real estate and interest in real estate situate in Bangor, in said County of Penobscot, being lots number eight and nine according to Park Holland's survey of Bangor, except such lots as have already been sold therefrom—and that it would be for the benefit of his said wards that the same should be disposed of and the proceeds thereof put out at interest. And he further represents, that it would be for the interest of said wards and all concerned to have said lands sold at private sale from time to time. Wherefore your said petitioner prays that Albert W. Paine of Bangor aforesaid, may be appointed and authorized by your Hon. Court to sell and convey the interests of his said wards, in all or any part of said premises at private sale, as to him may seem fit and proper, agreeably to the provisions of statute in such cases made and provided.

D. 1847, by their promissory note of that date, by them subscribed, for value received promised one Isaac Berry to pay him or order the sum of thirty-seven dollars and sixty-nine cents in sixty days from date, with lawful interest therefor after said sixty days, until paid, and the said Isaac Berry thereafterwards on the same day indorsed and delivered the said note to the Plff. by reason and in consideration whereof the said Defts. became liable and promised the Plff. to pay him the contents of the said note according to the tenor thereof. And the Plff. avers that the said sixty days have long since elapsed.—Yet though often requested, said Defts have not paid said sum, nor any part thereof, but neglect and refuse so to do, to the damage of the said Plff. ROCKS AHEAD.

BY MARTIN F. TUPPER.

Steady, steady, gallant vessel!
Hard a-port,—obey the Helm;
Lest the breakers round thee wrestle,
Lest the billows overwhelm;
Though the pleasant just at present
Be the voyage thou hast taped;
There is peril, stark and storm,
Look you! in the rocks ahead.

See, that license of Opinion
Stifle not real's holy flame,
Till Religion's pure dominion
Dwindle feebly to a name;
Greed of gain and sordid sense
Tempt the wayward hence of youth,
And impede the blest diversions
Of the citadel of truth.

See, that no pernicious pure
Scare the good from duty's post,
Lest, by license grown tyrannic,
Liberty be lost a-boast;
Let the greatest, best and wisest
Calmly guide thine equal course,
Or no more to heaven on thy ricest,
Headlong flung with downward force.

Let the Press with truth enlightenin'd
Nobly lead the People' name,
That while public wrongs are rightenin'd,
Private names go unmaligned;
Let not evil spirits pandle
To the passions of the mob,
Neither pen be dipped in slander,
God and man of love to rob.

If all clamor overriding
Law supremacy rules the land,—
If domestic love abiding
Rules at home with peaceful hand;
If refinement chastens pleasure,—
If fair dealing hallows gain,—
If wise intervals of leisure
Soothe the heart and cheer the brain.

Yes!—as now, let patriots stir thee,
Undismayed by men or things;
Let Religion's cherub cheer thee,
As aloft she sits, and sings,
So in Eden, not in Eden,
Shall thy happy name be read,
And the Glorious Ship of Freedom
Weather all the rocks ahead!

The General's Story.

To realize the truth as well as the richness of the following story, it is absolutely necessary to see and hear the General himself repeat it, with all the proper emphasis and action, suited to each word:

"Down upon 'em like a thousand of brick."—This phrase, says a New York paper, had its origin at Bunker Hill, soon after the great battle; at least so says the General. It seems the General's father buried his treasure in the cellar of his house in Charlestown, before the British burned that place, and soon after the great battle, the old man and one Colonel Wood came into the town to see what they could discover among the ruins. But as they crossed Charlestown Neck they were seen by a British officer stationed in the floating battery then lying in Mystic river, and presently they were entertained by a shot from one of the guns which buried itself in the earth near by them. Of course they took to their heels and ran for life. On the Neck was then standing a brick chimney, the house to which it belonged having been burned down, and to this chimney they betook themselves for safety. Not so sooner had they got behind it, than another shot striking the top, it rattled down, as the General's father always expressed it, "like a thousand of brick right on to us."

The story spread, and in time it grew down on 'em like a thousand of brick" came to be a popular adage, though its origin is probably not known by one in ten thousand who use it.

VERY LIKE AN IMPOSTER.—The Constitutional Correspondent relates a most incredible story, or a curious supposition, which of the two time will prove. On the 30th of September last, a stranger was arrested in a small village in the district of Lebus, near Frankfort on the Oder, bearing all the marks of a Caucassian origin. He is represented as speaking but broken German, and on being called upon to give an account of himself, said his home was Jopher Vorim, and that he came from a country called Laxaria, situate in the portion of the world called Sakria. He appears to understand none of the European languages, but reads and writes what he calls the Laxarian and Abrarian tongues. The latter he declares to be the written language of the clerical orders in Laxaria, the other the common language of his people. He says that his religion is Christian, and that it is called Isphiha. In Laxaria he represents to be many hundred miles from Europe, and separated by vast oceans from it. His purpose in coming to Europe was to seek a long lost brother, but that he suffered shipwreck on the voyage, where he did not know, nor could he trace his route on shore on any map or globe. The five great compartments of the earth he calls Sakria, Allar, Asiar, Auxar, and Euplar. The authorities in Frankfort on the Oder have decided that this mysterious stranger is no vile imposter, and they have requested that he may be removed to Berlin to undergo an examination by the learned and scientific of the metropolis.

Who are they that succeed in business? The one who stirs up the public, or those who make no more noise than a church mouse? Of course the former. The man of enterprise and intelligence always puts himself and his merits straight before the public eye, and keeps them there. It's the only way to make money, get a reputation, or be any body.

In a certain village in Massachusetts the opera label their rum jugs "Washing Fluid." Very appropriate, for rum has washed many a man clean out of house, home and humanity.

An old "revolutioner" says, that of all the solemn hours of the revolutionary struggle he ever saw, that occupied in going home one dark night, from the widow Bean's, after being told, by her daughter, Sally, that he "needn't come again," was the most so.

A LESSON. A clerk in a mercantile establishment writes to his friends at home, "I have a plaguey easy time, of it now-a-days—very little work to do—our firm don't advertise."

CORN GRIDDLE CAKES.—Take one quart of boiling milk or water upon a pint of Indian meal. When luke warm, add three tablespoonfuls of flour, three eggs well beaten, and a tea-spoonful of salt. Bake them on a griddle.

Ladies of fashion starve their happiness to feed their vanity, and their love to feed their pride.

May Festivals.

To-morrow is May-Day. Many are the pleasant parties planned for the enjoyments of the season, for gathering beautiful and fragrant flowers, and for enjoying agreeable pastimes and innocent sports. For centuries the May-Day festivities have been observed in England, having their origin, doubtless, in the Floralia of the ancient Romans, at which there was a great display of flowers and dancing among the women. It was a beautiful incident, the coming of our fathers to this land in the May Flower, which seems to sanction and justify the observance here of the May festivals which were so famous in England, thus linking Old England and New England by a beautiful wreath. The sturdy Puritans of Elizabeth's time condemned the festivities of May-Day with others common to their country at that time, yet when they came here and the delightful spring opened upon their bleak homes, and the sweet wild blossoms peeped up from sunny nooks it gave joy to their hearts, when their little ones returned from their short strolls, bringing with them the delicate harbingers of summer, the pink and white flowers and the trailing vine to weave into garlands for home adornment. They could not forget the 'May Flower' surely, and their hearts were tenderly touched with the associations of youth, and they smiled approvingly at the simple emblems, and found in them a representative of their more simple and purer faith and the unobtrusive quietness and order of their inward life. May-Day, thus introduced, gave the name to the little spring flower common to all New England, and which will be gathered at an early hour to-morrow morning by hundreds of the youth of our city. May-Day has become the great naturalizing day of our cities, and railroad trains and other appliances are brought into requisition. Florists get up grand festivals at their Green Houses and Gardens as in this city, Mr. White of the Broadway Branch of Mt. Hope Green House, and Mr. Brockmuller of Palm Street Green House, propose to do to-morrow, and distribute prizes to their several guests. Mr. Brockmuller offers a rich list of premiums in addition to a good plant to each visitor, which he means shall be worth the admission fee. These among other attractions of the day will be likely to interest a large number of our people to-morrow morning, for, we take it, the great distinguishing feature of May-Day festivities is in being on hand in the morning.

The citizens of London used to turn out before the dawn, and in whole parishes and sometimes several parishes went forth to the woods with the Mayor and the Aldermen, and returned with flowers and the branches of trees to decorate their dwellings and to twine around the May Pole.

Old John Milton was a lover of May sports. He had been one, doubtless, of many pleasant circles around the May Pole. His muse thus sang of the day:—

"Now the bright morning star, day's harbinger,
Comes dancing from the East, and leads with her
The flow'ry May, who from her green lap throws
The yellow cowslip and the pale primrose.
Hail, bounteous May, that doth inspire
Mirth and youth, and warm desire;
Woods and groves are of thy dressing,
Hill and dale doth boast thy blessing.
Thee we salute thee with our early song,
And welcome thee and wish thee long."

We wish our youthful friends a bright and glorious morning to-morrow and the highest enjoyments in the social festivities of the day. The public schools will be suspended to-morrow, to give all the children and youth of the city an opportunity to participate in the healthful excitement of the occasion.

☞ The Jeffersonian claims to be the organ of the Democratic party, and it seems to be, if it is not, the mouth-piece of the anti-slavery party, and appears now to be desirous of being the medium of communicating the doctrines, views and purposes of the Whig party. There is danger of its undertaking business beyond its capital. But really the Democrat so slashes and chops up the Jeffersonian that we are disposed to be a mere looker on and see the fun fly.

The common 'bud' bush, or as it is sometimes called, 'Planting Bush,' and also called by many the, 'Swamp Pear—Pear Berry,' (*Amelanchier botanists.*)—has been found to be a very good stock into which the pear may be grafted, in order to make dwarf trees. This is abundant among us, and will soon be throwing out its profusion of white blossoms in all parts of the State. Those who are desirous of trying the experiment are reminded that now is the time to do it.

☞ The Fife Advertiser, in referring to a peculiar characteristic of the coal found in that district, which can be converted into all sorts of articles of household furniture, &c., states that a gentleman of that place is now engaged in the manufacture of a sofa, wholly composed of coal. The front standards are beautifully worked in the manner of the richly carved figures that appear so frequently in Layard's remains of ancient Babylon.

☞ The Norfolk Herald states that orders have been received to fit the Ohio as a receiving ship, and hands are already employed on her. It is rumored that the Franklin, the present receiving ship, will proceed to Portsmouth, to undergo repairs, in the new Balance Dock at that station.

☞ Working parties are now busily engaged in laying the rails on the Grand Junction Railroad, which is to connect the Fitchburg and other roads with tide water at East Boston.

Crevasses on the Mississippi.

It is estimated that 200 families, numbering 1000 souls are now houseless and desolate from the inundation of the New River, county, in parishes of Iberville and Ascension.

☞ Senator Douglass is urged as a candidate for the Presidency by his friends in Illinois.

☞ The weather is rather cool but very pleasant.

Adjourned to Monday next, at 2½ o'clock P. M.

No Humbug.

Brockmuller asks attention to his May Day Festival. He presents an inviting programme—and every ticket is sure to secure to its holder the worth of its price, as the cheapest plant to be drawn is worth twenty-five cents, that being the sale price. Had he included in his prizes a large number of plants of the most trifling value,—as strawberry slips, and the like, he might have put his tickets at a reduced price. But he is quite sure the public will prefer the course he has taken. "Cheapest not always best."

The public are assured that nothing will be wanting to make a floral visit to Palm street agreeable—and that Flora's favors will be found as abundant and every way agreeable there as anywhere else in town or about it; and to all lovers of May-Day and flowers, we say with the antique Robert Herrick,—

"Gather the rose-buds while ye may,
Old Time is still a-flying;
And this same flower that smiles to-day
To-morrow will be dying."

or more specifically thus,—

"Let such delights be in the street
And open fields, and we not see't?
Come, we'll abroad, and let's obey
The proclamation made for May:
And sin no more, as we have done,
By staying,
But my Corinna, come, let's go
A-Maying."

The Treaty with Mexico—Cuba Adventurers, &c.

Washington, April 27.

A formal complaint has been made by the Mexican Government in consequence of the repeated Indian outrages on their frontier.—By the treaty with Mexico the United States agreed to protect the frontier between this country and Mexico from Indian aggressions. Congress at the last session failed to make the appropriation asked by the War Department for this duty, and it consequently has not been performed. Mexico now requests us to notify the Guadalupe treaty. Unless the provisions of the Mexican treaty are carried out, the President if he deems the matter of sufficient importance, may order the troops to be paid out of the secret service fund.

Some of the Georgia adventurers in the Cuban invasion have arrived here on their way North. They stated that the expedition was on foot and would not be easily frustrated.—The frigate Susquehannah is ordered to check the invasion.

The amount of stock issued to foreigners last week was $127,450.

The Insult to Jenny Lind.

Pittsburgh, April 28.

There is much feeling here among our citizens at the insult offered to Jenny Lind on Friday night, and strenuous efforts are being made to arrest the perpetrators. A card from Mr. Barnum announces that she will visit us again in July.

Albany, April 29th.

Gov Hunt has issued a proclamation offering a reward of $800 for the apprehension of Edward Welsh, Michael Sullivan, Cornelius Sullivan and Patrick Cooney, who are charged with having killed Wilton Clements, a constable of Chateaque County.

Death of an Indian Chief.

A Seneca chief, Da-o-ne-ho-ga-wah, known among the whites as John Blacksmith, died at Tonawanda on Friday. He has always been a determined and fearless defender of the rights of the red men, against the encroachments of the 'pale faces.' He was regarded by the Six Nations as their greatest chief since the death of of Red Jacket.—Rochester Democrat.

"It is an ill wind that blows nobody any good." During the late gale, a new passage into Chatham harbor was formed across Chatham or Nauset Beach. We understand that there is five feet of water in the new channel at low water, and that a strong tide sets through. The new passage is at the place where an attempt was made several years ago to dig through the beach, and not far from where the entrance to the harbor was seventy-five years ago. If the new entrance continues open and becomes wider and deeper as it now seems probable, it will add largely to the value of property in Chatham, and be a great convenience to the fishermen and coasters.—(Yarmouth Register.)

Sugar—Sales of 200 boxes yellows at 6¼ @ 7½c ⅌ lb, 6 mos and market firm.

Cotton—Manufacturers are purchasing at the decline noted to supply present wants.

New York, April 28.

Flour is dull and prices rather lower, sales 1600 bbls at $4 37½@4 44 for State. Southern is also heavy; sales 200 bbls at $4 55@4 87½. Corn meal quiet. Wheat in fair demand, with sales of a cargo of Genesee reported at $1 14. Corn—63@66½c for round yellow, and 65½c for Southern yellow. Oats are without change; sales moderate. Provisions—dull and prices generally unchanged.

There is no mistake but it has become proverbial throughout the country towns and city, that if you want good Oysters go to Farrington's Saloon, where a constant supply is to be found. Also, new sweet Cider, Tiger Feet, pickled Clams, Maple Sugar, Hot Coffee, Iced Eggs, and Oyster Soups. Great is the variety at this establishment.

Bliss's Compound Cod Liver Oil Candy.

Spurious medicines spring up like weeds in a garden, and like them they prove injurious to whatever they come in contact with. No medicine probably ever had a greater number of counterfeits than Bliss's Candy; but this fact speaks volumes of the excellence as a remedy for coughs, colds and consumption. If it were not a good article, and did not the public admit it, it would not be counterfeited—that is a clear. But the purchaser must avoid the spurious article, and purchase only Bliss's Candy, which is the original and only genuine article. Prepared only by D. K. BLISS, Druggist, Springfield, Mass. The mail steamer Franklin arrived at Cowes, 3 P. M. April 15th.

The steamer City of Glasgow sailed on the 16th with heavy freight and 120 passengers.—Hon. Mr. Clousen, Minister at Brussels, among the number.

The steamer Arctic arrived on the 15th, at 7 P. M.

COTTON MARKET.

The Cotton Market gloomy, influenced by advices per Arctic. Buyers obtained a concession of ⅛d per lb. Sales of the week 26,400 bales.

Corn—Market very dull.

Western Canal Flour 19s. to 20s.

Wheat—5s 4d to 6s 5d for red and 6s to 6s 2d for white.

Indian corn meal—14s 6d.

American stocks remain unaltered. In the English stocks an unusual steadiness during the week. Variations not exceeding ¼ to ½ for money, closing at 97¼ for account.

Transactions in beef unimportant.

Pork goes off slowly.

Demand for Bacon not so active.

Lard firm.

Tallow not varied in price.

Cheese meets a moderate demand.

The news generally is unimportant.

Parliament adjourned for the holidays, to meet again on the 28th.

Her Majesty will open the great exhibition in State. The public will be excluded during the ceremony.

An insurrection headed by the Duke of Saldava, had broken out in Simtra. The insurgents were 6000 strong. The King had taken command of the royal troops.

The overland mail from India had arrived.

The political news from India and China is unimportant.

Business at Bombay steady but inactive.—At Canton, freights £3 10s; a decline expected.

Late accounts from the Cape of Good Hope state that the British forces had obtained a decisive victory over the Kaffirs at Kat river, still there was little prospect of a speedy termination of the war.

Norwegian Bark, Superb, from New York for Panama put into Rio, March 14th, her crew having mutinied. Spoken, April 4, Erin-go-brough, for New York, Marian, Cork, for New York, lat, 47 N, lon. 20 W.

Frew Brown, & Co's, Circular, Liverpool, April 17.

To-morrow being Good Friday and a close holiday, the business in cotton for the week ends on this evening, and we have to report a dull and heavy Cotton market with a decline in American descriptions of ⅛d per lb, since the departure of the last steamer, and of ¼d per lb since the date of our circular of the 8th inst.—The market is in that depressed state that prices must be considered nominal and it would be impossible to effect sales in quantity even at ¼d per lb. below our present quotations.—Public opinion being decidedly against the market in consequence of the continuance of large receipts into the American ports. The stock of cotton in this port is 537,000 bales, of which 362,000 are American, against 670,000 bales last year, of which 385,000 were American.

Trade in Manchester is quiet, and less doing in goods and yarns with a downward tendency in prices.

Our Corn market is very dull being overwhelmed by the the enormous imports of Flour from France.

The receipts into this port alone from that country during the past week being equal to about 40,000 bbls. of 196 lbs. and the quantity forced on the market so far exceeds the demand that prices are quite nominal.

Western Canal Flour 19s a 20s. Philadelphia and Baltimore 20s 6d a 21s 6d, dull sale. Ohio and Canada 20s a 20s 6d and some 18s a 19s per bbl. White Indian Corn 33s, yellow 31s a 32s, and mixed 30s 6d a 31s per quarter of 480 lbs. Wheat 5s 4d a 6s 8d for red and 6s a 6s 2d per 70 lbs. for white. Indian Corn meal 14s 6d per bbl.

SECOND DESPATCH.

ENGLAND.

Nothing of interest has occurred in Parliament previously to the adjournment for the holidays. On a motion for going into committee on the assessed taxes, Mr. De Israeli rose to move a resolution of which he had given notice, that in any relief to be granted by the remission of adjustment of taxation, due regard should be paid to the depressed condition of the owners and occupiers of land in the United Kingdom.

He commented with great severity on the course pursued by government during the present session, with reference to the agricultural interest, inveighed against their conduct in refusing to relieve the distress which they acknowledged to exist, and disappointing hopes which the farmers had been led to entertain by the expression in the Royal Speech. He intimated before he sat down his intent not to agree to the repeal of the window tax but to oppose to the utmost the imposition of any kind of income-tax upon farmers. The speech was received with loud cheers from the protectionists.

Mr. Labouchre replied and argued that the relief afforded to the agricultural classes by the repeal of the window and modification of the house tax would be greater than would result from measures originally proposed with that object or than would be given by the repeal of the income tax as recommended by Mr. Herries.

Lord John Russell complained of the delusions practised on the country by these motives when brought forward in Parliament—declaimed every intention of changing the Free Trade policy of the country, but the result of the divisions upon which are paraded to the country as proof of the partiality of the House in favor of protection. The House decided for the motion—260 against 263, majority 13.

A petition had been presented by Lord Stanley in the Upper House from the inhabitants of British Guinea, praying for an entire alteration in the representative system in that Colony.—Earl Grey agreed with the noble Lord in thinking that Guinea should have free institutions as soon as it was fit to receive them.

The income bill will be read a second time when Parliament re-assembles on the 28th.—The Papal aggression bill on the 6th of May.

It is stated that the Parliamentary committee of inquiry have resolved to recommend that the American mail steamers call at Holly Head for the purpose of receiving and landing the mails.

CAPE OF GOOD HOPE.

Accounts from the Cape represent matters to be in a very unsatisfactory state.

The British obtained some victories over the Kaffirs with hard fighting. Fort Armstrong was recaptured. The greatest trouble I had to contend with, says Col. Somerset, commander, was to separate the women and children and to save them from destruction before we could storm the place. The men in the town would not surrender, but kept firing upon us out of the port holes. We could not take it, and were obliged to blow it up with shells. They fought desperately in the fort after it was stormed.—We killed 27 Kaffirs and Hottentots in the fort, nine in the town. The Burghers had a desperate fight before I came up; three men killed and fourteen wounded with Fingoes. They had to contest against thousands, and fought most bravely. I had four men dangerously wounded, and four horses killed. Sergeant Pitt badly shot through the leg; also Daly and two native soldiers. I have upwards of 160 prisoners, 70 to 80 stand of arms, 400 women and children. I have destroyed the Fort and all its contents.

The missionary settlements at Shelva had been burnt down by the savages.

GENUINE BALM OF COLUMBIA.

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balm. Age, sickness, or condition appears to be no obstacle whatever to its operation; it opens the fountains of the hair tubes, the fibre of the hair, by which means the sources (whose hair was gray as the Antelope's angle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds three times as much as other misnamed hair restoratives, and is more effectual.

THE PILES!

A CURE FOR LIFE SECURED!

DR. UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES!

THE VEGETABLE PILE EFFECTUARY, invented by Dr. A. Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public.

The Effectuary contains no *Mercury, Medicine, no Mineral, Colocynth, Gamboge*, or other powerful and irritating purgative. No fear of taking cold while under its influence, no change in diet necessary. It can be used according to directions as a *cure for life in general.*

Another testimonial to the wonderful virtues of the Pile Effectuary.

Messrs. Wyatt & Keelson—Gentlemen. For several years I have been troubled with piles, a very severe state of the bowels, indigestion and weakness of the system. Being completely worn down so as to be unable to attend to business, and advised I had of physicians and patent medicines, I tried this Spring a newly discovered medicine supplied to a physician for relief. The Piles being then so severe that I allowed several operations to be performed, without any benefit. Desperate indeed, I was to try other means, I read an advertisement of a cure guarantied by Dr Upham, 2 E. Broadway, N. Y., and purchased three boxes at your store, and from the use of which I found myself entirely rid of the Piles and my health much improved. I remain, ever, your much indebted friend.

The writer of the above, from motives of delicacy, declines having his name used, but authorizes us to refer to him or show the original certificate to those who may doubt its authenticity.

Another testimonial in relation to the efficacy of Dr. Upham's Effectuary.

Dr. Upham—Dear Sir, About two years ago I was afflicted with what was called Chronic Dysentery. I have suffered with it ever since, and physicians have told me that my liver was affected, and that my bowels were ulcerated, for which I was attended with a peculiarly putrid smell, and very frequent discharges. A short time since I made a visit to Massachusetts, in hopes of benefit from a change of air, but suffered more severely than ever before. While there a physician cured me to cure me for $10, in three months. Happily, in the midst of intense pain, I recollected I received by footman, I saw in a wrapper of your Effectuary, a perfect description of my complaint, together with many certificates of cures. This gave me great confidence in the medicine, and I purchased a box, and nine doses of which have apparently cured me, and am prepared to say every thing in its favor, or render any service I can to humanity by subscribing to its merits.

Respectfully yours, BENJAMIN PERCIVAL,

IN QUART BOTTLES.

For Purifying the Blood, and for the Cure of SCROFULA, MERCURIAL DISEASES, RHEUMATISM, CUTANEOUS ERUPTIONS, STUBBORN ULCERS, LIVER COMPLAINT, DYSPEPSIA, BRONCHITIS, SALT RHEUM, CONSUMPTION, FEVER SORES, FEMALE COMPLAINTS, ERYSIPELAS, LOSS OF APPETITE, PIMPLES, BILES, GENERAL DEBILITY, &c.

In this preparation we have all the restorative properties of the root, combined and concentrated in their utmost strength and efficacy. Experiments were made in the manufacture of this medicine until it was found it could not be improved. According to wo find it resulted in almost universally in curing Scrofula, Liver Diseases, Salt Rheum, Gout, Protraction of Vital Powers, and all those tormenting diseases of the skin, so trying to the patience and injurious to the health. It is a tonic, aperient and diuretic. It acts simultaneously upon the stomach, the circulation, and the bowels, and thus three processes, which have ordinarily the result of three different kinds of medicine, are carried on at the same time through the instrumentality of *one* remedial agent. There are many ways of relieving pain for the time being, but there is only one way of removing disease. No palliative, no anodyne, no topical application will remove it. It must be attacked at its source, the fluids of the body, which convey the poison to the tissues where it is to be thrown in inflammation, ulcers, tumors, abscesses, or under swelling, &c., as the case may be.

Those diseases are reached, acted upon, purified by some powerful agent. Such an agent is Sand's Sarsaparilla, which will stimulate the vital fluids, eliminate and expel from the stomach and bowels, and thus invigorating and at the same time restores the vigorous tone. Its great merit is that it meets and neutralizes the active principle of disease itself, so when this is done, the symptoms (necessarily disappear. The rapidity with which the patient recovers health and strength under this triple influence is surprising. Each dose goes to attack it as applied, and in consequence of its concentrated nature we have only to point to the accumulated testimony of multitudes who have experienced its effects to convince incredibly its efficacy and real value.

Mount Vernon, Ohio, Dec. 1, 1850.

Messrs. A. B. & D. Sands: Gentlemen—I take pleasure to add my testimony in favor of your invaluable medicine, hoping it may lead some other unfortunate sufferer to try its efficacy, and that they may be benefited as I have been.

I arrived home from the United States in the over land route, about the first of October last. A few days after I was attacked with a very disagreeable eruption of the skin, which for the season took out. I happened to find your Sarsaparilla, and tried it, like and remembering the popularity of your medicine at home, I purchased three bottles, which had the best effect of removing my difficulty.

Yours, &c.,

J. H. MILLER, C. S. A.

FROM THE STATE OF MAINE.

The attention of the reader is called to the following testimonial, as it marks the early effect by using only five bottles of Sands's Sarsaparilla.

Skowhegan, Me., April 15, 1850.

Messrs A. B. & D. Sands: Gentlemen—This is to certify that the subscriber, of Pittsfield, County of Kennebec, State of Maine, has been afflicted more or less with a severe scrofula, which continued to fasten itself on my lungs. In January, my lungs were so swollen I could not get on a horse to attend to my business, and the several large sores in my mouth, throat, &c., I was about to give up in despair when I was advised to try Sands's Sarsaparilla. I had not much faith in it, but I gave to your agents in Augusta, Me., and procured a bottle, which did me so much good I went and got another and continued using it I had taken five bottles, and now I am perfectly well, and I do not hesitate to recommend it to any person who may read this, but more particularly to those afflicted with any disease of scrofula, I would most sincerely recommend an advise them to make use of Sand's Sarsaparilla. In any person wishes further information in this case, I can only refer them to my neighbors, and I can recommend the healing power of this medicine.

Signed, STEPHEN C. HAYWOOD.

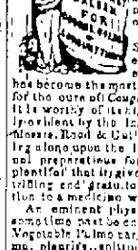
FOR Coughs, Colds, Consumptions,

AND ALL AFFECTIONS OF THE LUNGS.



The VEGETABLE PULMONARY BALSAM, having been tested by the experience of thousands for the instrument's years, is recommended by eminent physicians and others, of the highest respectability, as superior to any other preparation.

From the Editor of the Burlington Sentinel, May 17, 1850.—The Vegetable Pulmonary Balsam prepared by Fred'k Cyrus, of Boston, has become the most popular medicine ever set forth for the cure of *Coughs, Colds and Consumption.* That it is worthy of its high reputation is a sufficient proof of its immensity of its annual sales.—Messrs. Read & Cutler are above quackery, depending alone upon the intrinsic virtues of their medicinal preparations for their support. Humbug is so plentiful that it gives us real pleasure to offer the trifling and gratuitous tribute of our recommendation to a medicine we know to be of real merit.

An eminent physician writes us, "I have for a sometime past been in the habit of prescribing the Vegetable Pulmonary Balsam for consumption, asthma, pleurisy, spitting of blood, and coughs, in pulmonary affections of every kind; and with confidence recommend it as superior to any other preparation used for the above complaints."

Boston, Nov. 1, 1850.—New Certificates, no doubt any extent, might be added if necessary; but the proprietors feel that the article has become so universally well known, and is yet so generally acknowledged by physicians and others, as to make it unnecessary, to offer at this time, further proof of the merits of this highly popular article.

☞ BEWARE OF COUNTERFEITS AND IMITATIONS, such as CARTER'S COMPOUND PULMONARY BALSAM, Ayer's Pulmonary Balsam, and others; in part bearing the name. Enquire for the article by its whole name, the

"VEGETABLE PULMONARY BALSAM," and see that it has the written signature of Wm. Jones Onyons upon a yellow label, on the blue wrapper. Each bottle is sealed and wax is stamped "Vegetable Pulmonary Balsam."

Prepared by READ & CUTLER, Importers and Wholesale Dealers in Medicines, Paints, Chemicals and Dye Stuffs, 32 India Street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. For particulars and recommendations, see a pamphlet accompanying each bottle.—Price 50 cents.
